**Babcock-Davis is proud to present an AIA HSW IIBEC CE course educating designers on roof hatches, smoke vents & fall protection**

This course explains roof hatch & smoke vent design benefits and life safety. Designers will gain a better understanding of code regulations regarding life safety and will be able to properly size and place vents in accordance with these codes.

## ***Who Should Attend?***

*Architects • Building Owners • Specifiers • Interior Designers • Engineers • Roofing Consultants*
